Insights from Chairman

Driving Success in Energy

The energy industry is the backbone of global energy supply, and at the heart of it lies our commitment to efficiency, safety, and sustainability. In an era where energy demand is evolving, we recognize the need for cutting-edge solutions that not only meet today's challenges but also pave the way for a sustainable tomorrow.

Our focus is on delivering tailored energy services that optimize operations, enhance productivity, and minimize environmental impact. From exploration and production to maintenance and decommissioning, we ensure that every aspect of our work adheres to the highest standards of quality and responsibility.

As we look to the future, collaboration and innovation will remain our guiding principles. Together with our clients, partners, and stakeholders, we aim to shape an energy landscape that is resilient, adaptable, and forward-thinking.

Thank you for placing your trust in our vision. We are dedicated to driving progress, empowering growth, and transforming the energy sector for the better.

KHALIFA MOHAMED A AL-ATTIYA
-Chairman

Our Mission

Provide safe, sustainable, and innovative energy solutions that power the world. We are dedicated to meeting the growing energy demands while minimizing our environmental impact and contributing to the industries we serve.

Provide cost-effective in the energy industry solutions with quality services in engineering, procurement, construction, commissioning and maintenance. With in-house capability, management expertise and a multi-skilled workforce.

Provide clients with support from the very source to the end-user, for the full life cycle of our client's projects.

Ensure that we deliver tailored solutions, optimize operations, and drive long-term success at every stage of the project.

Our Values

Guided by integrity, innovation, and sustainability, we strive for excellence in every project.

Safety

Ensuring the safety of our employees, partners, and communities is our top priority.

Integrity

We continuously seek new technologies and methods to improve our operations and reduce our environmental foot print.

Innovation

We conduct our business with the highest ethical standards and transparency.

Sustainability

We are committed to sustainable practices that protect the environment and promote long-term growth.

Our values ensure lasting impact and value for our clients and communities.

Our Services

Energy Services for Optimal Performance

We deliver comprehensive oil and gas services, from exploration to production and refining. Our expert team utilizes cutting-edge technology to ensure operational efficiency, safety, and sustainability.

Innovating Energy for the Future

We continuously seek new technologies and methods to improve our operations and reduce our environmental footprint.

Our comprehensive Assessment and Competence Development programs are designed to ensure that our team members have the skills and knowledge they need to excel in their roles and contribute to the success of our company.

Skill Enhancement Solutions

We offers a wide range of tailor-made solutions for selecting, training and increasing the skills of CLIENT and inhouse staff, whatever the type of installation, including the drafting and updating operating manuals.

Highly Skilled Manpower

At NEO JYL ENERGY SERVICES, we pride ourselves on delivering top-tier talent to meet the diverse needs of our clients. Our team of highly skilled professionals is dedicated to ensuring the success of your projects through their expertise, experience, and commitment to excellence.

Specialist Manpower Supply

NEO JYL ENERGY SERVICES provides specialist manpower supply to the oil & gas industry, for upstream, midstream and downstream projects and operations, for both short and long-term projects.

Our Trusted Partners

Amerapex Corporation is a technology, engineering and industrial services company based in Houston, TX with operations globally, offering technical expertise in processes and facilities. Amerapex mission is the advancement of clients. Through innovation, technology, integrated engineering and industrial solutions, Amerapex brings the highest quality and optimal cost to clients. Within Amerapex Corporation are Amerapex NDT LLC and Amerapex Services Group LLC.

Amerapex NDT LLC provides non-destructive testing services to a number of different industries including the petrochemical and refining industry. With an ever-growing demand for specialty inspection projects, we're the fastest growing provider of inspection programs that are specifically designed for the customer.

Amerapex Services Group LLC provides industrial solutions that include comprehensive cleaning and maintenance services to extend asset life, as well as ensure the integrity and safety of assets. In addition, Amerapex Services Group LLC provides turnkey environmental solutions to help ensure a healthy environment.

Amerapex offers safe and effective soil remediation services that result in elimination of waste generation, off-site transport, landfill disposal, or import of clean fill. We help clients eliminate potential landfill liability concerns and significantly reduce costs by using a combination of mechanical and chemical processes to re-mediate impacted soils.

For more than 45 years, Lorneville has been responsible for many major construction, maintenance, turnaround, and fabrication projects. Each member of the Lorneville team holds our company-wide commitment to quality, safety, and workmanship to the highest standard, ensuring your next project—regardless of size or scope—is delivered on time, on budget, and to your satisfaction.

Lorneville's expertise extends throughout the Petrochemical, Power Generation, Energy Transition, Pulp and Paper, and Mineral and Mining sectors, and we work with many well-respected industry leaders, including Irving Oil, LNG Canada, and Parkland Refining. Whether you need to extend the life of your existing equipment, refurbish your facilities, or have a new construction project on the horizon, Lorneville can handle your scoping and supply needs.

Mechasol Turkey is multidisciplinary team of engineers with long years of oil & gas skid solutions, oil & gas pressure vessels and heavy industry solutions, inspection, engineering, supervision, training, Supply Chain Management, Project Management and Feasibility Study services.

At WSG Energy Services we offer emission prevention and control benefits through a range of integrated and managed solutions.

WSG Energy Services is operating the most advanced fleets of equipment in the industry, WSG provides an unrivalled range of innovative and technical solutions that reduce emissions and assist our customers in achieving success in the transition to a net zero world.

With our experience since 2009 at CAF Industrial, we take a tailor-made approach with exclusive responsibility and act as a holistic solution partner of your fluid transfer, pressure vessels and firefighting projects of every need, kind, size, location (onshore/offshore) and industry -globally.
